# About US

H.O.M company established in 2010 as a small business specialized at construction, MEP contracting, total facility management and industrial solution.

H.O.M take pride in being a customer-oriented company that is passionate about delivering high-quality at general contracting & facility management services.

## OUR VISION:

---

To be one of the prestigious companies in Egypt in the field of construction and total facility management.

## OUR MISSION:

---

**H.O.M** aimed to provide its engineering & facility management services to the Egyptian market at the highest level of quality at a competitive cost to satisfy customer needs and meet their expectations.

## OUR VALUES:

---

### Safe

Safety is never compromised

### Quality

Building excellence

### Pragmatic

Problem solving in a realistic way

### Innovation

We collaborate to innovate and deliver the highest expertise

### Customer Satisfaction

We listen, we build trusting relationships and we stand behind our work

### We Deliver

We do what we say we will do

# Why HOM – Facility Management?

- We do and always aim to provide the technical and maintenance options that support your day to day business.
- Our innovative and unique Service Delivery Strategy means all of our clients get a 100% personalized and tailor-made service to meet their needs.
- We provide round the clock, fast and efficient hard and soft services with international standards.
- We plan and look for every opportunity to prolong the lifeline of your property or investment.

## Cost Efficient Solutions:

Construction is one of the sectors that have direct and indirect impacts on the environment. Buildings use energy, water, and raw materials, and generate waste and potentially harmful atmospheric emissions.

For that, the launch of the sustainable communities is important for building better lives. It is aimed at mitigating the impact of buildings on the environment through green and sustainable standards.

**H.O.M** use our own in-house designed technology to optimize delivery and minimize cost. Our digital tools and monitoring technology offer customers energy efficient solutions to help drive long term sustainable future.

# Our Team

Our work begins and ends with people. People that are empowered to make a difference.

We give our people the tools, training, and support they need to deliver service excellence and do better every day.

# What We Do ...

We are a technically implementing Total Facility Management service which delivers hard services such as mechanical, electrical, HVAC, fabric maintenance, small works, and projects. We also deliver or manage on behalf of our customers soft services, including cleaning, front of the house, and security.

We use our own in-house designed technology to optimize delivery and minimize cost. Our digital tools and monitoring technology offer customers energy-efficient solutions to help drive a long-term sustainable future. we use a collaborative approach to ensure we exceed our customer needs at every stage of the project.

As a result, we can deliver clear management, transparent costs, seamless work, and an easy handover on completion. That's why we've worked on such a broad range of assignments, from installations to multiple projects across petroleum, pharmaceutical, construction, FMCGs, and industrial multinational companies.

we ensure that every project puts the safety of workers at its core and conforms to CDM regulations for health and safety.

## Scope Of Work...
